INTELLIGENT SOLAR LIGHTING

# solar smart compressor

the **solar** range  
INTELLIGENT SOLAR LIGHTING

**Taking smart bins to another level the smart trash compressor automatically compresses rubbish powered by a 40 watt solar panel built into the bin.**

A voice sensor allows the door to open and shut automatically and the unit also has smoke sensor with emergency control alarm.

Produced in stainless steel and powder coated to any colour the compressor also allows the opportunity to display branding/ advertising.
